

Scan. Store. Shred.™

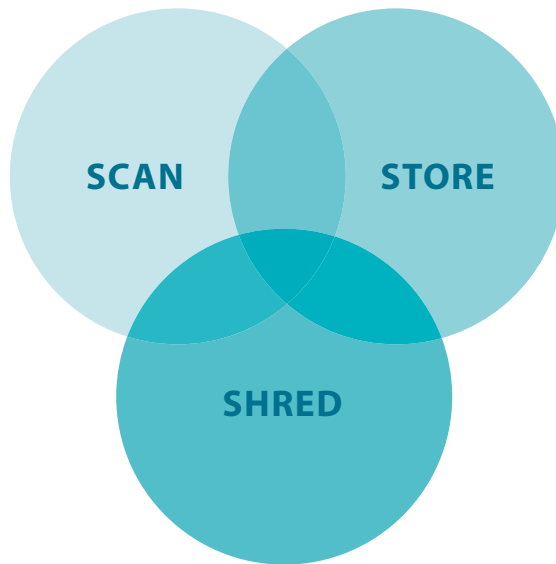

Take control of your business documents

Managing your paper documents and digital data is critical to your business — but it's not what your business is about. It's too easy for file boxes and backup files to pile up. Soon the very heart of your business, your business information, is at risk.

Kenwood is a professional records management center with more than 25 years of experience managing millions of documents and data files for some of the largest industries in Iowa,

including: healthcare, insurance, law, financial, government, information solutions, food processing, electronics, manufacturing and distribution.

We use the latest software and barcode technology to organize and track your information, store your documents and data in secure, environmentally-controlled facilities, and provide 24-hour on-demand delivery. Call **(319) 396-0622** to find out how we can help you take control of your business documents, or visit us on the web at kenwoodrecords.com.

- Automated digital imaging.
- Paper document and digital media storage.
