

Scan. Store. Shred.™

## Convenient, efficient and secure storage

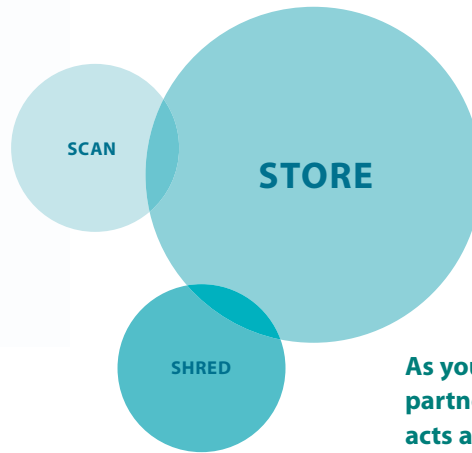

Whether your organization's documents are on paper, computer tape or microfilm — storing and protecting them is an essential responsibility. In a disaster, it may be the only way to recover your business.

At Kenwood Records, we'll help you manage that responsibility with customized solutions, the latest technology and professional security.

Kenwood offers both warehouse storage space and fireproof, environmentally-controlled vaults.

We'll pick up your records, store them in a secure location, and provide barcoding, electronic inventory control, tape rotation and 24-hour on-demand records retrieval. Web-based inventory management is available.

Have a non-standard request? We can help with that too. We're committed to meeting your document storage needs with turnkey solutions that save you time, space and money. Call **(319) 396-0622** or visit us on the web at [kenwoodrecords.com](http://kenwoodrecords.com).

- QuickCode™ inventory tracking system allows us to locate your records in minutes.
- We can retrieve and deliver a single record or an entire box within a few hours.
- Access your records 24 hours a day, 365 days a year.
- Pickup and delivery 24 hours a day by Kenwood drivers.
- Digital and backup data stored in certified, fireproof, humidity-controlled vaults, built to NFPA 232 standards.
- Facility access is limited to authorized personnel.

**As your storage partner, Kenwood acts as an extension of your organization.**

- Tape rotation services protect valuable data.
- Validated fire detection and suppression.
